Welcome from Tony Cotter, Chief Executive

This past year has been full of great achievements that couldn't have happened without our staff, our board members and residents' participation in helping us scrutinise our performance. Like other housing associations, Gallions is changing due to the new funding landscape. I encourage residents to think ahead and learn about the changes and how they might affect you.

We have continued to improve on the issues that matter to you most; including key issues in neighbourhoods such as rubbish dumping and anti-social behaviour.

74% of residents were happy with the general cleanliness of their blocks. We also dealt with 340 void properties, which were repaired and turned around for re-letting. We had a total of 13,977 repairs carried out, and a 97.98% satisfaction score that tells us our residents are happy with our repair service.

The Alsike Road/Yarnton way project was successfully completed this year. The project saw the demolition of walls and old garages and access walkways. We hope to continue projects like this in 2012/2013.

I look forward to the year ahead, working with our residents to continue to develop and shape our communities.

Tony Cotter

Gallions Housing Association

Welcome from John Sands, Chair of the Board

This is my fourth annual report as Chair of the Board and I have enjoyed working with the Executive Team, Board colleagues, residents and Gallions' staff through the challenges and successes this year.

The role of the board is to set out the strategy, values and direction to ensure Gallions continues to succeed as a housing association.

This past year the board has been hard at work with the Executive Team to review our purpose and the strategic direction of the organisation; while maintaining our social purpose. Our new direction has a commercial focus, which is a balanced response to the changes to benefits and the financial support for housing associations that the Government has set out.

The landscape and the future of housing associations has changed. At Gallions we are ensuring we thrive through these challenging times, so that we can continue to provide good quality homes and services for our residents.

Welcome

At Gallions we want to make a real impact in our communities and provide high quality affordable homes for our residents, as well as help build and shape communities that can work and live together.

Gallions Housing owns and manages homes across London and Southeast offering a range of general needs, shared ownership and sheltered housing.

Development Programme

Ongoing development - all schemes

	Pipeline	Landbanked	Approved	Completed
Social rent	85	12	124	
Affordable rent	147			
Shared ownership	82			
Rent to homebuy	13	9	122	
Outright sale	95			
Commercial	6		48	10
Total	428	21	294	10

Social purpose, commercial focus

'we will make sure that our residents remain at the heart of everything we do, by achieving our purpose of providing quality homes in thriving communities'

Social purpose, commercial focus

By Mike Robinson
Planning and Performance Manager

Like all organisations Gallions has to manage a number of real challenges over the next few years. These are because of the financial challenges that you will have heard about which are impacting on many countries; the changes to the way the government assists with the building of new homes through grants; and the changes to welfare benefits that could directly impact on you.

The new Business Plan sets out how Gallions will manage this.

Gallions has changed its approach to business planning to make sure that the changes do not cause more impact on your everyday lives than they need to. Although Gallions will be adopting a more commercial approach, we will make sure that our residents remain at the heart of everything we do, by achieving our purpose of providing quality homes in thriving communities.

This report tells you how we are performing and where performance has dipped and what we are going to do about it.

Neighbourhood Highlights

Rubbish Dumping

- In response to your concerns about rubbish dumping we have now employed a Refuse Enforcement Officer. This role involves, identifying those responsible for dumping rubbish, and raising awareness about the correct methods for rubbish disposal.

Anti-Social Behaviour

- Between April 2011 and March 2012 1,175 reports of anti-social behaviour were received by the team.
- 91 % of residents surveyed were satisfied with the way the case was dealt with and 92 % were satisfied with the outcome of the case.

Sub Letting

- Between April 2011 and March 2012, we recovered 47 properties that were being unlawfully sub let.
- These properties have now been re-let to those on the housing waiting list.
- We have worked closely with Local Authorities and Police to gather evidence, which has led to a number of convictions for fraud and benefit offences.

How far will your £'s go at Gallions compared to market prices in Greenwich and Bexley?

The average rent, excluding service charges.

1 bed	2 bed	3 bed	4 bed	5 bed
£73.7	£88.4	£102.8	£112.8	£128.9

Rents increase by the rate of inflation (RPI) plus 0.5 %. Assured rents increase every August and secure rents increase biannually in April. Additionally some units have converted to the new affordable rent tenure, which are rented at 80 % of market rent including service charges.

'We compared average market value rent with the average rent you would pay at Gallions. The figures below are weekly rent rates.'

	Borough of Greenwich	Borough of Bexley	Gallions Housing Association
1 bedroom	£245	£175	£73.7
2 bedroom	£349	£225	£88.4
3 bedroom	£567	£305	£102.8
4 bedroom	£704	£375	£112.8
5 bedroom	£1,562	£400	£128.9

Information from Property Watch London, www.home.co.uk and Foxtons estate agents

How rent money is spent

For every £1 rent spent:

Interest	15p
Rent not collected	3p
Repairs & maintenance	57p
Other	25p

Neighbourhoods

Improving neighbourhoods

2011-2012 has been a good year for the Neighbourhoods Directorate. We have worked hard to stop anti-social behaviour, reducing rubbish dumping and improving the look and feel of our neighbourhoods so that residents love where they live. The results from the latest survey indicate that the hard work is paying off. However, there is still work to be done to create a community in which all can feel at home.

Highlights from the STAR survey
(which is carried out by Housemark and the National Housing Federation)

74%

74% of residents are satisfied with their neighbourhood as a place to live.

15%

Satisfaction has risen 15% since 2007.

Satisfaction with keeping our communal areas and green spaces in a clean and tidy condition

Gallions' residents were asked how successful Team Gallions are at keeping our communal and green spaces in a clean and tidy condition and as you can see the results are very positive. Looking back there is an average increase of 15%.

	2010	2012	Increase
Lifts	58%	77%	+19%
Communal areas	58%	78%	+20%
Walkways & Paths	63%	70%	+7%
Car Parking	56%	69%	+13%
Garages	36%	63%	+27%
Parks & Green spaces	68%	73%	+5%

Team Gallions carries out quality standard assessments for all its work independently and with resident inspectors, we have exceeded our quality target of 75% for this year.

Below are a few of the activities we undertake to achieve this along with some interesting figures:

- 2154 pest control visits across our stock
- move block bins around for collection 28,900 times a year
- clear 1500 tonnes of waste from in and around the communal areas of our homes and green spaces
- maintain 150 hectares of public open spaces
- look after 30,000 trees
- look after 7km of canals
- inspect and repair 250,000 square metres of paving
- provide services 365 days a year

London Green Points recycling project proves successful with Gallions' residents

In 2011 Gallions' residents in Thamesmead became the first in the UK to benefit from a new, innovative scheme that rewards people for recycling, reusing their rubbish and reducing their waste.

The points can be spent on a range of 1,000 eco-friendly products or donated to one of three local community charities in Thamesmead, which include MyBnk, The Thamesmead Youth Awareness Project and Trees for Cities. Over 60 local retailers have now signed up to offer discounts and special offers and since the scheme was launched, over 30 % of Gallions' residents in the Bexley part of Thamesmead have activated their accounts. They are already earning Green Points with recycling on the way up and waste on the way down.

It has been announced that the Royal Borough of Greenwich will be introducing the Local Green Points scheme in the Greenwich part of Thamesmead in 2013. This means that many more Gallions' residents will soon be able to benefit from the scheme.

Neighbourhood Services in action

Gallions Neighbourhood Services Team work closely with the police and residents to tackle crime and anti-social behaviour. Our Warden Team often work evenings and weekends to follow up on customers' complaints.

Last year the team:

- Gained a conviction against a Gallions' resident for metal theft.
- Worked with residents and shop keepers to tackle problems with street drinkers at Arnott Close.
- Met with 5 Young People to sign Acceptable Behaviour contracts.
- Helped resolve 4 cases where residents were in dispute through mediation/restorative justice.
- Supported the police with tackling crime.

Part of our work is helping residents move and settling new residents into their homes. In 2011-2012 we:

- Helped 74 tenants move via Mutual Exchange or Transfer.
- Visited 371 new tenants in their homes to help them settle into the neighbourhood.
- Helped 22 residents move out of London through our 'Perfect Fit Scheme'.

Preparing residents for the changes ahead

Changes to welfare benefits are coming next year, we have been working hard this year to ensure our residents are prepared.

Our Welfare Benefits Team helped over 800 tenants last year, providing support and advice on a range of benefit issues. As a result of their intervention, over £116k of backdated housing benefit was allocated to our residents along with an increase of over £13k of ongoing housing benefit entitlement. They also managed to increase our residents' income by over £22k per year.

Resident Engagement

Resident Groups

Asset Management Focus Group
This group meets to discuss Gallions' plans for improvement works and to input into materials used. The group also looks at the budget for repairs and maintenance.

Homeowner Consultation Panel (HCP)
Meets to discuss homeowner issues and is used as a forum to consult on matters directly affecting Gallions' homeowners. The HCP has been responsible for several changes to Gallions' services, including: changes to the format of service charge statements, implementation of a policy outlining payment terms for homeowners, measures being considered to involve homeowners in procurement processes and the introduction of a Consultation Protocol, which clarifies Gallions' obligations to residents in terms of consultation.

Friends of Thamesmead Parks
This group carry out projects in Thamesmead's parks and open spaces, including wildlife habitat improvements, tree planting and food growing. They also work with other organisations to raise funds to improve open spaces for all residents.

Team Gallions Interest and Consultative Group
This group meets to discuss issues with green spaces, street and block cleaning. Thanks to feedback from this group Gallions was able to work with the local authorities to increase waste collection in some areas.

Editorial Panel
This group writes the residents' section in Gallions' Thamesview magazine. They also look at other documents to give Gallions feedback on how easy the organisation is to understand.

Residents Associations
A Residents Association is a group of people who live in an area, or a block, who decide that they want to get together to deal with concerns that affect their local community. The group can include tenants, shared owners, leaseholders and homeowners. One of our Residents Associations has been working tirelessly with their management company and Gallions to reduce service charges for all residents in their area. Please contact the Resident Engagement Team if you would like to set up a Residents Association in your area.

Gallions Residents Group (GRG)
Started their role as a scrutiny panel as part of the co-regulation and scrutiny programme in October 2011. They produced their first report on Gallions' performance against the Home standard in March 2012. Changes to services as a result of the GRG include the publication of the residents repairs responsibility leaflet, English as a second language classes being offered by Axis to their operatives and changes to the message that residents hear when they call either Gallions or Axis

Resident Auditors
So far, they carried out audits on reactive repairs and Team Gallions Environmental Services. These reports include strengths , weaknesses and recommendations for changes to services. They are used by the GRG Scrutiny Panel as evidence for their reports to the Customer Services Committee.

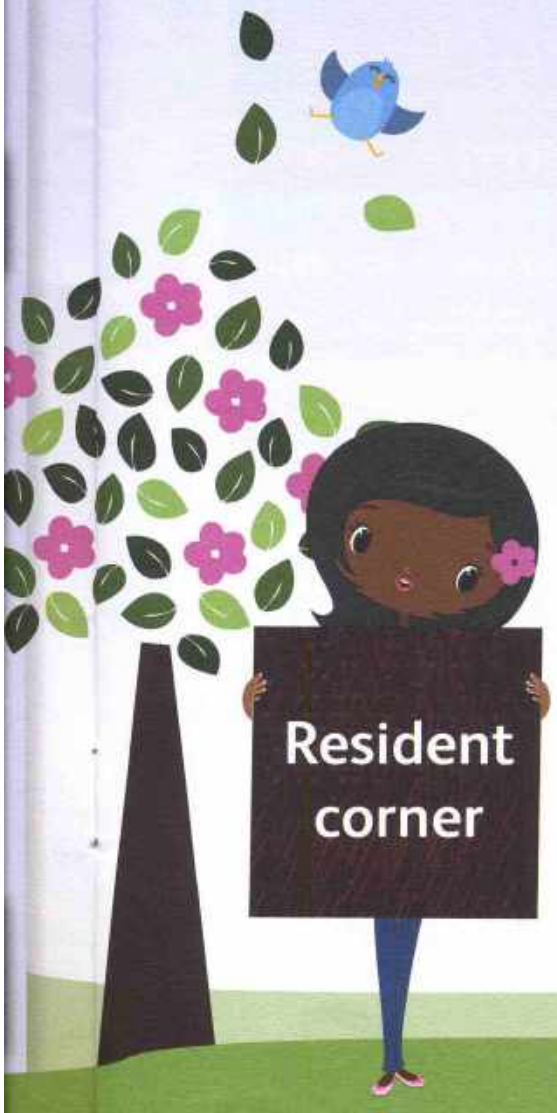

Consultation and Local Offers

Resident Engagement and Consultation Co-ordinator

Gallions Housing Association (GHA) employed a Resident Engagement and Consultation Co-ordinator for the first time in July 2012. This post holder's main purpose is to promote resident engagement, community development and consultation on all aspects of GHA's service delivery. They act as an internal resource for advice and support for staff carrying out consultation.

Local Offers

The Resident Engagement and Consultation Co-ordinator will be working across all departments, to improve services by continuing to improve Local Offers. Local Offers is GHA's way of tailoring its services based on residents' priorities and suggested improvements.

Interview with Gallions resident, Cherry Kent

A resident of Thamesmead for nearly 30 years and with Gallions since its start in 2000, Cherry Kent is no stranger to the town or Gallions Housing Association. She's involved in numerous community groups that range from empowering residents with important knowledge to mentoring youth at the Link. A member of Gallions Residents Group scrutiny panel and the Tavy Bridge Regeneration Residents Action Group, Cherry helps to keep residents informed about what is going on with their homes and community.

Humbly, Cherry describes her community volunteerism as 'Selfish'.

"I do it for myself really. By getting involved in all these groups it will improve the lives for everyone, so it will improve things for me too. I don't think residents realise the voice and the power they have. They have a strong voice if they are willing to use it".

One of the biggest consultation projects of the past year was at Tavy Bridge, and Cherry has been at the forefront of the resident engagement. "Gallions informs us of everything that is going on with the project. The Tavy Bridge Regeneration Residents Action Group (TBRRAG) is responsible for communicating and updating the project's progress with residents and to feedback views on the regeneration from residents to Gallions".

"Some residents are very complacent about things, but they don't realise they are the ones who have the power to change it. The residents groups at Gallions have been successful in engaging and bridging the gap between Gallions and residents. It would not be possible without the hard work and volunteer members who make up the groups".

When asked what her highlight of the last business year was, she mentioned the Big Lunch, which happens every June. "The Big Lunch is a simple idea that brings neighbours together. Especially now, no one knows their neighbours and this event allows people to meet each other".

Since starting in 2009, thousands of Big Lunches have taken place in all types of communities across the UK. Last year on Sunday 5th June the best part of two million people took part in The Big Lunch 2011.

Cherry concluded by encouraging other residents to get involved in groups or activities that they're interested in.

If you're interested in getting involved e-mail getinvolved@gallionsha.co.uk

Asset Management

It's important to Gallions and to our residents that properties are kept up to shape. It makes our residents happy to live in well kept homes and it's good for long-term investment of our properties.

2011/12 was a record year in terms of the amount of money spent on repairs and maintenance with £15.5 million being spent across all our programmes. This is reflective of the on-going need to invest in customers' homes as well as in the surrounding communal spaces, roads, footpaths and landscaping.

Planned Maintenance

We started the first phase of our major five year investment programme at The Moorings and completed programmes of work in other areas. The largest amounts of money were spent on the following works:

170 homes received new bathrooms at a cost of £501,000

164 homes received electrical rewires at a cost of £559,000

157 homes received new kitchens at a cost of £693,000

167 homes received new windows and doors at a cost of £1.1 million

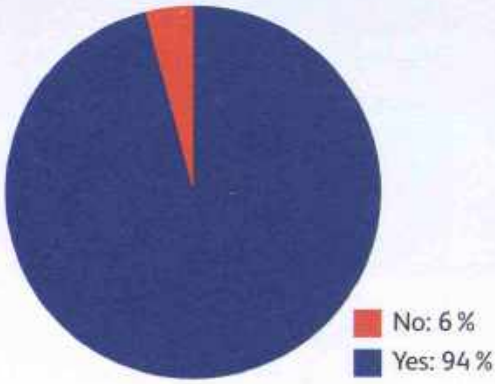

192 homes received new roof coverings at a cost of £1.3 million

2011/12 Overall customer satisfaction with the service

Resident satisfaction with our major investment works exceeded targets, although the number of customers who responded to our surveys were lower than we had hoped:

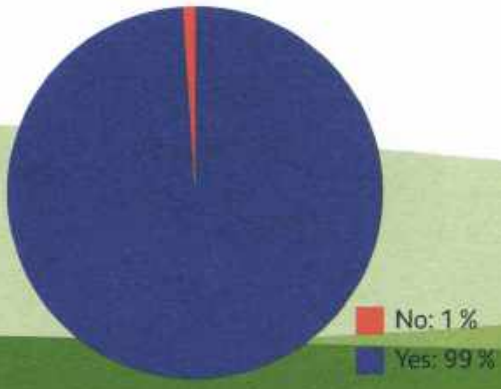

Kitchens, Bathrooms & Rewires

Based on 50 responses
Target satisfaction is 85 %

Doors & Windows

Based on 94 responses
Target satisfaction is 85 %

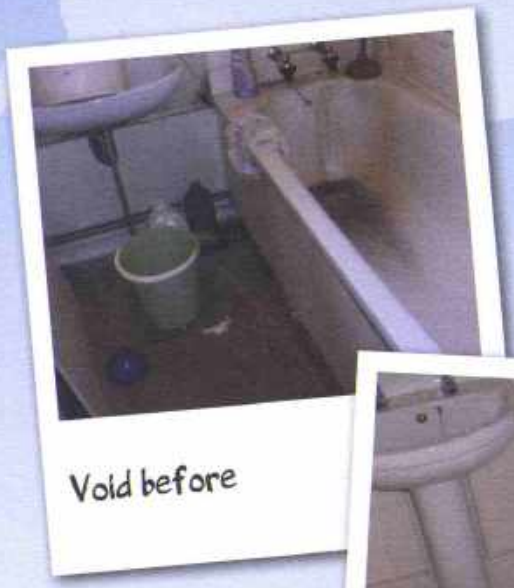

Repairs

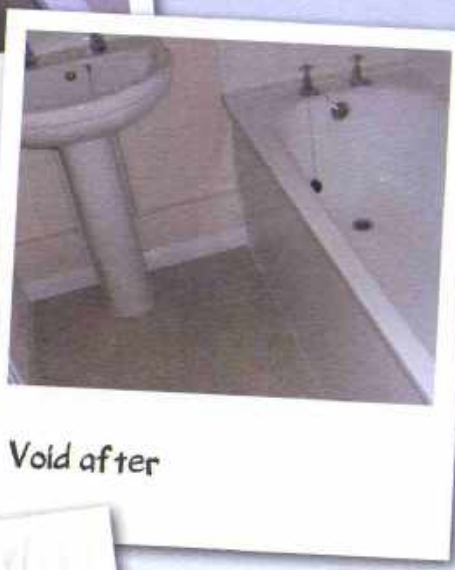

Vacant Properties (Voids)

During the year we dealt with 340 vacant (void) properties at a total cost of £1.7 million to make them suitable for re-letting. This cost includes £682,000 for improvement works, such as new kitchens and bathrooms, which were undertaken to some properties. We take the opportunity to do work whilst the property is vacant and where the replacement may be either overdue or due within the next few years.

Void before

Void after

Void before

Void after

Repairs

Responsive Repairs expenditure for the year was **£2.18 million** and this covered responsive maintenance to homes, block repairs to communal areas and minor works projects. **13,977 repairs** were carried out in total, which was down on 2010/11 when we carried out 14,724 repairs.

The average cost of responsive repairs per property was £422.84p equating to 2.52 jobs per property at an average cost of £167.39p per repair job.

Repairs and voids performance was very good during 2011/12 as detailed below:

KPI	Target score	Unacceptable score	Performance
Repairs completed	97 %	90 %	98.40 %
Appointments kept as a % of appointment made	98 %	95 %	99.81 %
Repairs Completed 'right 1st time'	89 %	80 %	91.75 %
% of residents satisfied with repairs service	90 %	80 %	97.98 %
Voids completed on time	97 %	90 %	93.25 %

Value for money

Delivering value for money continues to be an important part of our work and this was particularly demonstrated in the procurement of our new gas servicing contract during 2011/12. As a landlord, Gallions is legally obliged to service some 5,000 gas fuelled boilers so we need to have an efficient and effective system in place to do this.

The arrangement with our previous contractor was due to end in March 2012, we had to put a new arrangement in place ready for 2012/ 13. Following an extensive competitive tendering and selection process, which took place over 6 months and involved Gallions' residents as well as staff; P&R Installations were awarded a 5 year contract on the basis of quality and price.

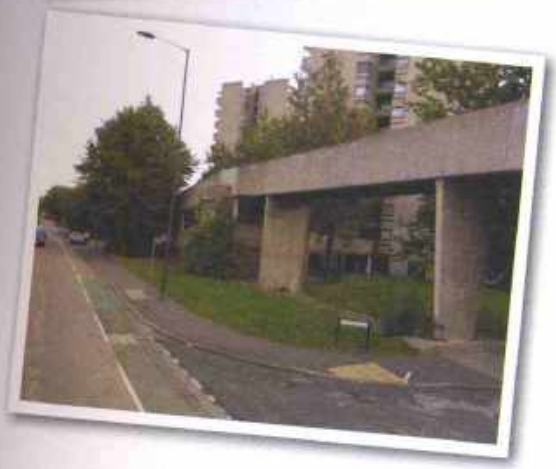

'Their price for the contract was £128,000 cheaper than the old contractor, which equates to £101 per property for a service compared to the previous contractor who charged us £127 per property.'

This considerable cost saving, combined with the additional services that P&R will be providing has delivered excellent value for money.

Regeneration

Alsike Road/Yarnton Way Project

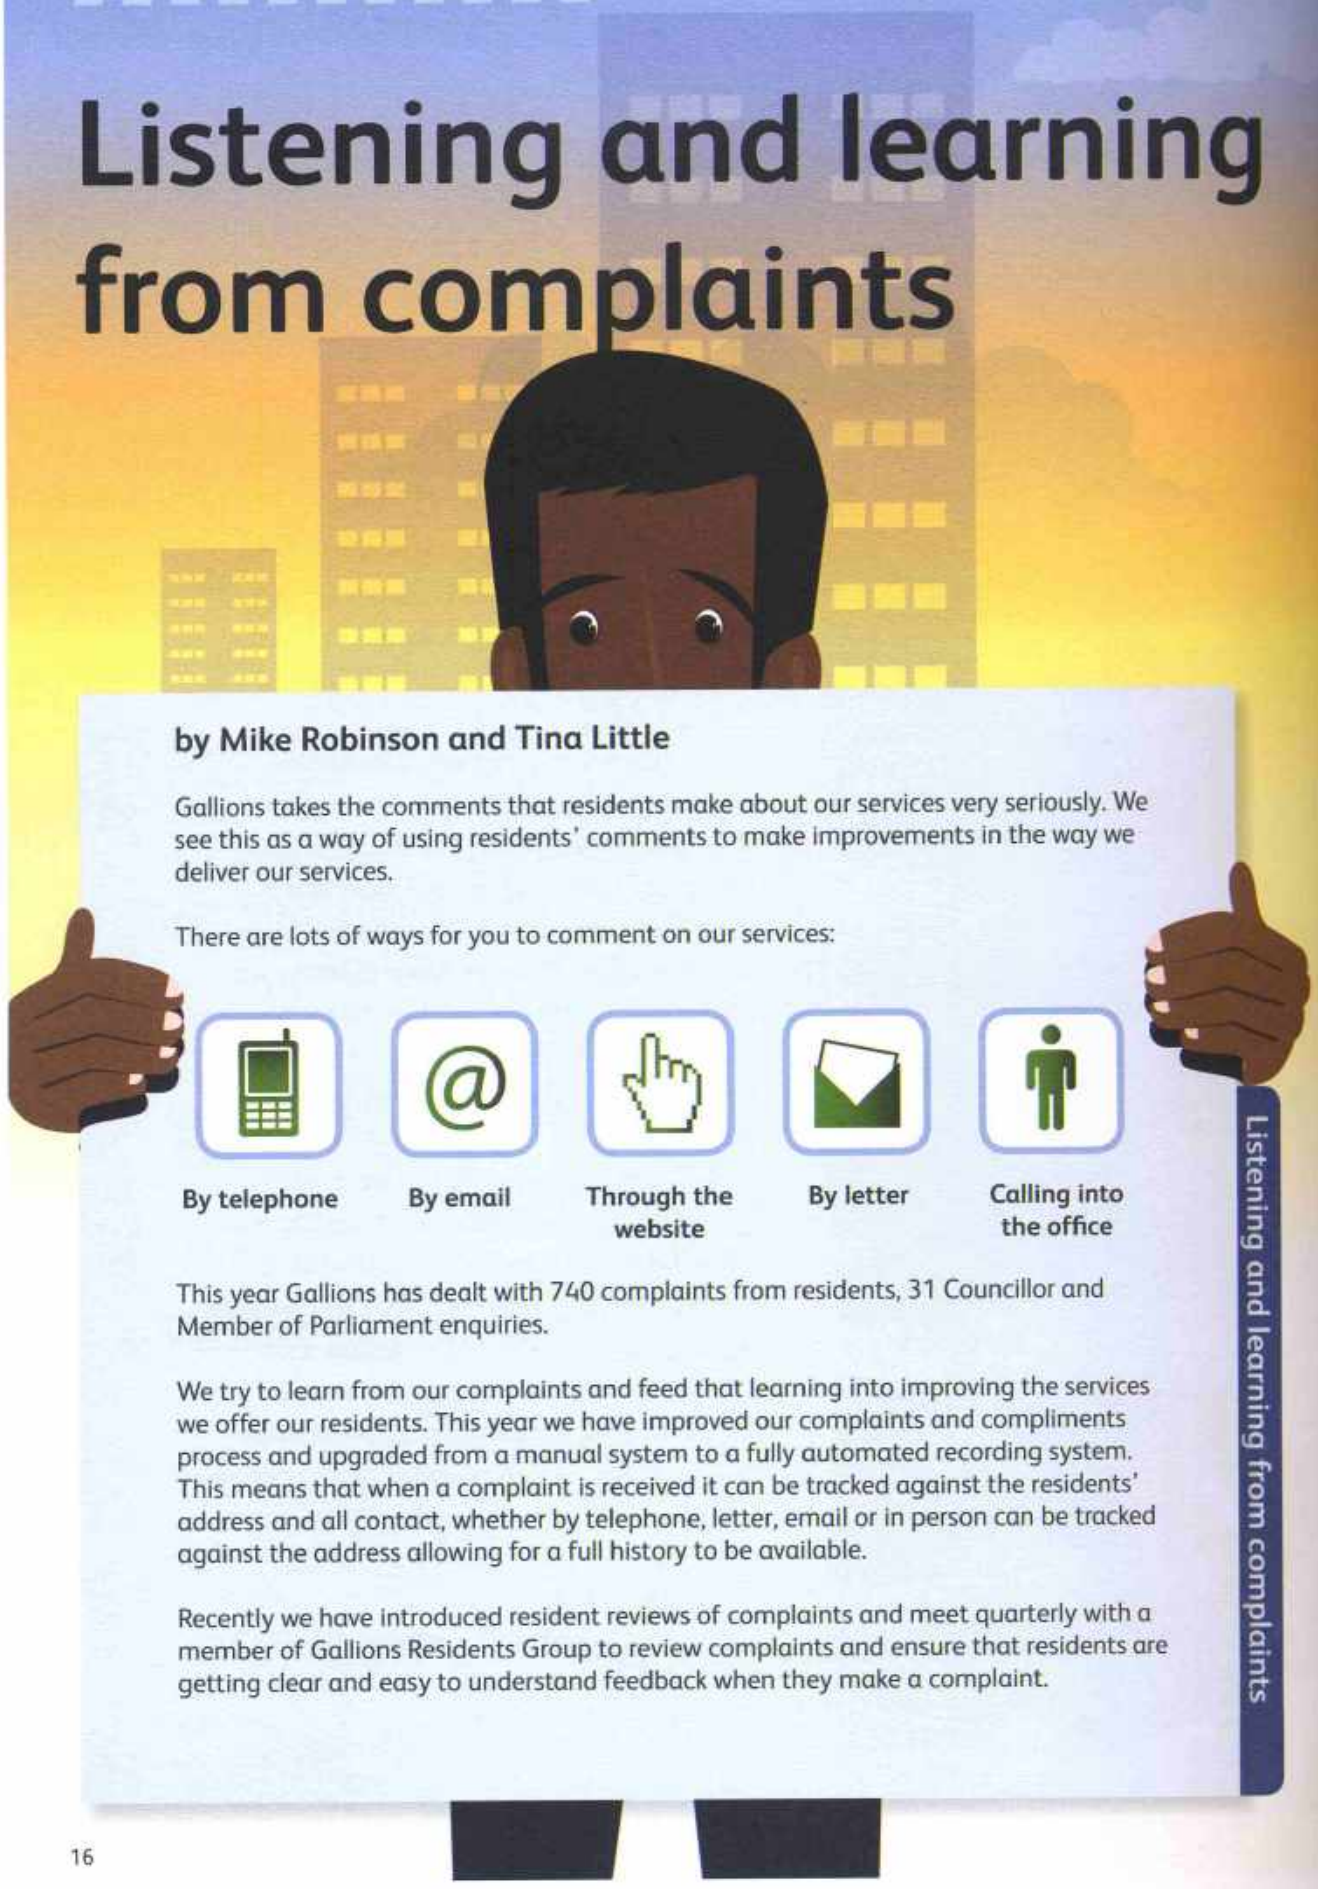

We commenced works on a new landscaping and parking project at the corner of Alsike Road and Yarnton Way adjacent to Dexter, Argali and Harlequin House.

This is the first of what will hopefully be a number of infrastructure projects that we intend to carry out over the next few years. We recognise the fact that investment is needed in the external environment as well as to customers' homes. More projects like this across Thamesmead over the longer term (subject to available funding) will start to reshape the whole look and feel of the area.

So far, only the demolition of walls, old garages and access walkways have been carried out, but the photos show what a remarkable difference this has already made. Feedback from customers indicates that this has immediately reduced anti-social behaviour and is making people feel safer because the area is now much more open and is not hidden away behind the wall.

The landscaping and parking works will be tendered and completed during 2012/13. We will continue to work with our customers in the area to shape what we do.

Listening and learning from complaints

by Mike Robinson and Tina Little

Gallions takes the comments that residents make about our services very seriously. We see this as a way of using residents' comments to make improvements in the way we deliver our services.

There are lots of ways for you to comment on our services:

By telephone **By email** **Through the website** **By letter** **Calling into the office**

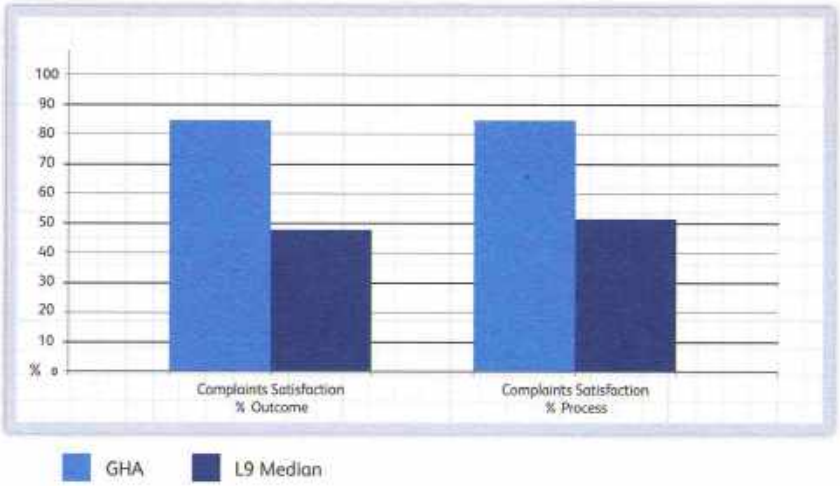

This year Gallions has dealt with 740 complaints from residents, 31 Councillor and Member of Parliament enquiries.

We try to learn from our complaints and feed that learning into improving the services we offer our residents. This year we have improved our complaints and compliments process and upgraded from a manual system to a fully automated recording system. This means that when a complaint is received it can be tracked against the residents' address and all contact, whether by telephone, letter, email or in person can be tracked against the address allowing for a full history to be available.

Recently we have introduced resident reviews of complaints and meet quarterly with a member of Gallions Residents Group to review complaints and ensure that residents are getting clear and easy to understand feedback when they make a complaint.

How do we compare?

Each year Gallions is subject to an independent assessment, and we remain above the enhanced standard. L9 is a Group of Housing Associations that come together so that ideas and comparisons can be shared about the services we offer. 97% of our complaints are responded to within the agreed time scales of the L9. Below is how our complaints system compares with other L9 housing associations.

We continue to improve and learn from our complaints. Below is a sample of the service improvements we have made this year.

Complaint	Failing	Improvement
E-mails have been sent to the Enquiries In-box and a response has not been received.	Automated e-mail enquiry box receives emails but no automatic receipt / acknowledgment is given upon receipt.	We have amended the process so that a receipt / acknowledgment is given and confirms who their enquiry is passed to.
Complaint received by a new tenant whose new cooker required 13 amp provision which was not supplied at the cooker point.	Gallions provide both a 45 amp supply and a gas connection, not a 45 and 13 amp. This has caused a problem with certain duel fuel and gas cookers.	In future, GHA will inform our customers that if they have purchased either a dual fuel or gas cooker that requires a 13 amp supply, we will adapt the existing outlet to suit. This information will be provided to our customers when they sign up for one of our properties.
Leaseholders complained that the information they received about their charges were unclear and confusing.	Leasehold and shared owner bills used too much jargon and were not in plain english.	The format was amended in consultation with the Homeowner Consultation Panel. Feedback received is that the letters are now comprehensive and easier to understand.

Working together

Working with our partners to empower our residents

Tilfen Land

'For more than a decade, Tilfen Land has worked closely with Gallions Housing Association – and our other shareholder Trust Thamesmead – to deliver an ambitious programme designed to benefit Thamesmead and to lay the foundations for economic growth and social prosperity in the years ahead.

Our own programme of property investment and development is one that has continued to deliver results despite challenging market conditions in recent years and we are pleased that, through shareholder distributions, we can contribute to both organisations whilst they continue such important work at the heart of local communities.'

Nigel Houston, Chief Executive, Tilfen Land

Trust Thamesmead

'Trust Thamesmead's primary objective is to 'Transform Thamesmead' but we recognise that we cannot do this alone and that strong and sustainable partnerships are key. Since 2008 we have, therefore, committed heavily to quality partnership work and have a significant number of partnerships either already defined or under development.

Of these it is very clear to us that the most important, and the one that can make the most significant impact on the quality of life for Thamesmead residents, is the relationship we have with Gallions Housing Association. Our recently agreed joint vision, statement of commitment and clear action plan will go a long way to help make that objective a reality'

Mick Hayes, Chief Executive, Trust Thamesmead
