Demolish the deck over the car park at Tavy Bridge to improve security and general safety.					
Relocate the shops and businesses in Tavy Bridge to front onto Harrow Manor Way, so that they are more accessible and visible to everyone.					
Provide a better range of shops and businesses.					
Provide a new, improved public space at street level at the heart of Tavy Bridge which is easily accessible and can be used in all sorts of ways.					
Provide a youth centre and better facilities for teenagers					
If possible, remove the high level concrete ramps and bridges over Yarnton Way and Harrow Manor Way and replace with pelican crossings controlled by traffic lights.					
Improve the access to the lake and play area					
Improve the general appearance of the whole area, both buildings and open spaces.					
Improve and expand the Health Centre facilities.

We plan to begin work on developing these ideas immediately after this consultation process. Those ideas then have to be priced and approved by the local authority. A great number of other processes also have to take place, but it is likely that we will see building contractors on site within a year of this survey.

Enclosed is a leaflet prepared by Gallions architects. It contains some images of what some of these ideas may look like.

These are not actual plans, just ideas on paper. The final plans will be decided by the results of this survey and other consultations with local residents and businesses.

Send your questionnaire in the enclosed pre-paid envelope to Irene George at Gallions Housing Association.
